Evelyn Irizarry Principal

To the Graduating Class of 2003:

The moment you have been waiting for is finally here. In spite of obstacles, you have succeeded. Be proud of your accomplishments. Never stop pursuing your dreams. Be relentless, be resilient, be consistent, be life-long learners. You are deserving of the honors and praises you are about to receive.

Some of you will go on to institutions of higher learning. Others will enter the military or the job market. Whatever you choose to do, be dedicated and committed, and do not rest until you achieve your goals. Bulkeley High School has prepared you well.

Thank you for the honor and privilege of having been your Principal for the past three years. I wish you the best and rest assured that you will always be a member of the Bulkeley High School family.

Evelyn Irizarry
Principal

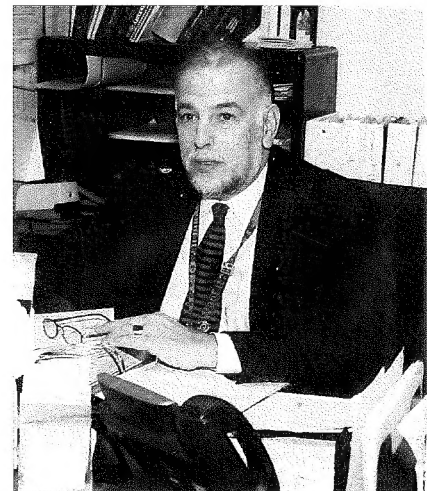

Assistant Principals

Rafael Lopez

Congratulations to the graduating senior Class of 2003. You have worked hard and achieved many goals and objectives. I truly hope that you are leaving us not only with a solid education, but also with many fond memories of your years here at Bulkeley High School.

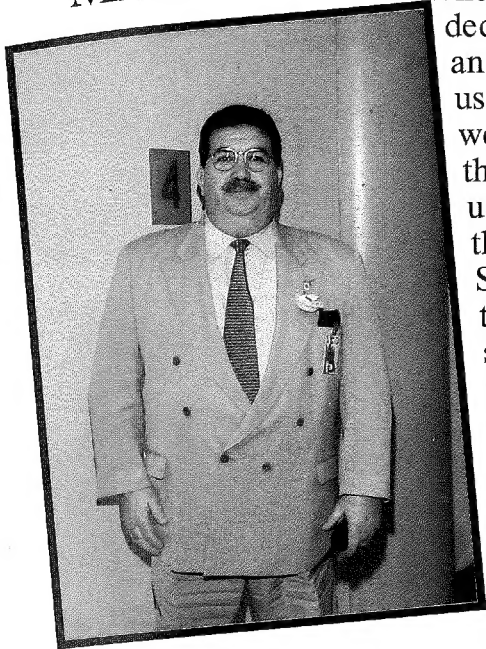

Best wishes in all the years ahead. May they be happy and fulfilling ones for all of you. Always remember that you are part of the "Bulkeley Family."

Buena Suerte!

Assistant Principals

Mr. DiPietro

Where would we be without the dedication of our Principal and Vice Principals? Some of us would not be here if it were not for all of the effort that they put into keeping us on task, in line, and in the building!

Sure, we sometimes thought that the corner store or the park was the right place for us at the time. Some of us may have thought that mouth and attitude was the solution to all of our "problems" in school. Fortunately, our VP's got up every day

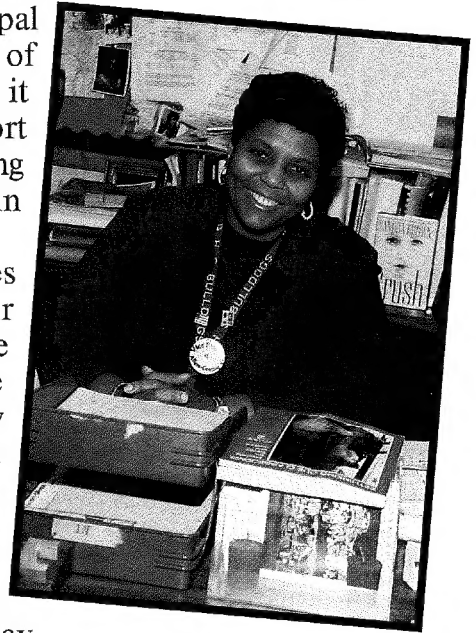

and came in to deal with us. They all had their different styles, some quiet and to the point, some no-nonsense, tough and right to the point, and some telling it like it is: "you have to be responsible for your choices and actions, and the results of your choices and actions". Whatever the style, whatever the advice, the bottom line is that they all wanted us to get to where we are today.....walking across the stage on graduation day. They want more than that for us too. They want us all to be successful, happy and productive in our

lives ahead. Is that just because they don't want to have to deal with us again next year?

Is it because they need more time for the freshman, sophomores and juniors? No, it is because they chose to make kids lives better.

We made it this far because of your help and dedication, and we thought you should know it is appreciated! '03!

Yessenia Santiago (Treasurer)- missing

To the Class of 2003,

I can't believe this day has finally come! It seems like yesterday when I was out in the portables teaching science I to all my "portable kids." Thanks for taking it so easy on me!

Now, four years later my very first class is graduating. My how time flies! Before you leave the halls of Bulkeley, I wanted to thank you for a great four years. I've enjoyed teaching you, coaching you, watching you play your sports, talking to you, and just getting to know you. I guess you can say that I have enjoyed everything and you make it worth all the time and effort. There is something truly special about this class and I won't be the only one with tears in my eyes on graduation night.

I've only known Bulkeley with the Class of 2003. I will go on teaching but the Class of 2003 will always hold a special place in my heart. You were my first class and the best class. I wish you all the best and hope that your futures are bright and prosperous. Never let anyone tell you that you can't do something, because I know you can. Always hold your head up high and be proud of who you are and where you came from because good things do happen in Hartford. The Class of 2003 is proof of that.

Yours truly,

GRADUATION DAY

Weird how time passes by so fast,
all of a sudden the present becomes the past.

We have prepared for this day for years,
although we hadn't prepared
for so many tears.

Looking back at the basketball games, and that
school dance suddenly we wish
we had just one more chance.

All we have left are memories
of the good times.
It's sad to hear the bells last chime.

Now it's time to say goodbye to it all.
Goodbye to friends hanging out.

It's time to move on,
It's Graduation Day!

YEARBOOK

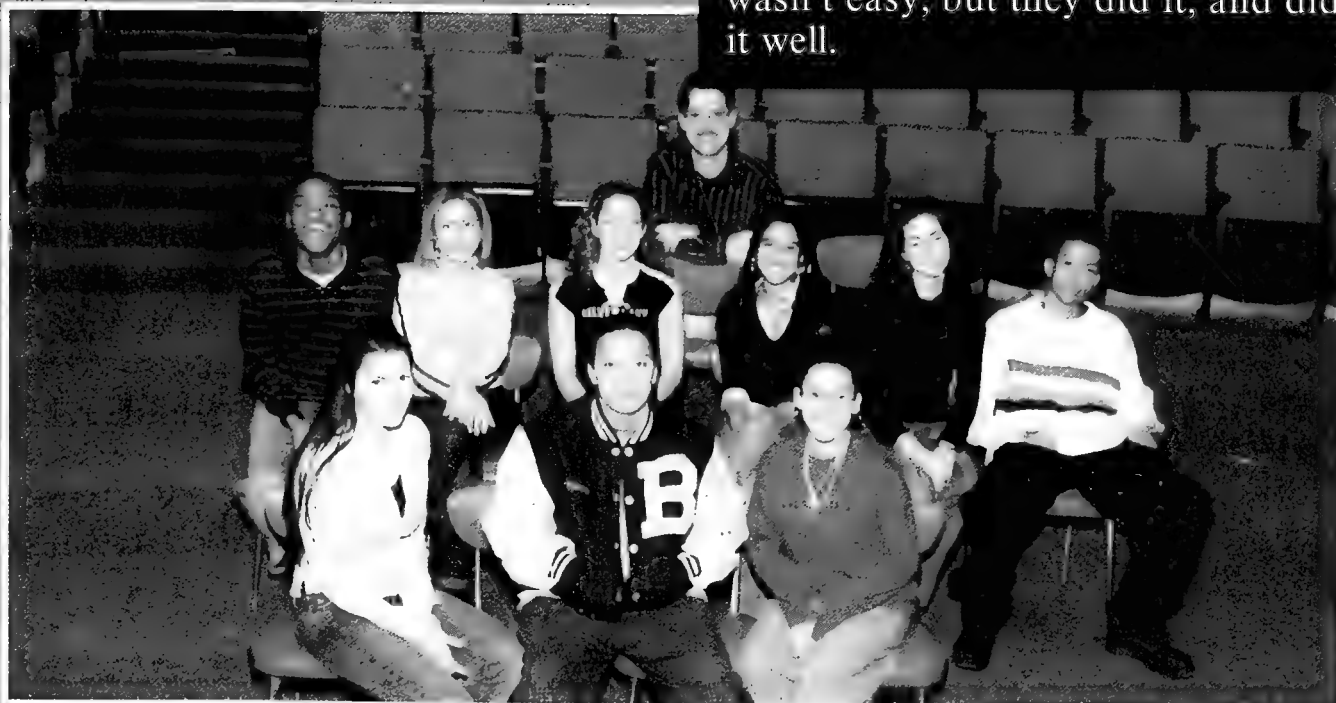

Mary Beth
Kiernan
Editor-In-Chief

Mr. Kolding
Adviser

Building the yearbook was a huge undertaking. It required hours of gathering memories, photographs, stories, art and more that represent the lives of Bulkeley Seniors. All of these random pieces of Bulkeley life had to be reviewed, organized, cropped, edited and then assembled into a book design that looked good to all people. The yearbook staff had to work together, with many different personalities and styles. Did that make it an impossible job? No! Every discussion held between yearbook staff members resulted in a change somewhere. Every staff member visualized their own idea of what the book should look like, and yet together they found success. It wasn't easy, but they did it, and did it well.

STAFF

This book is a child raised by a village, where the best of each member is reflected in the final product. This book is an example of what can be achieved through teamwork, dedication, compromise, and respect for the opinions of others. As yearbook advisor, I witnessed occasional disagreements and mistakes and along the way as the yearbook staff learned how to do something they had never done before. I also saw much that made me proud. I saw a group of people that worked together on a major task, a difficult task, and made the world a little bit better by their efforts. The adults of today have left our youth with a tumultuous world. There is upheaval around the globe that we can't ignore. When I worry about the state of mankind, all I have to do is look at my students, and I feel hope. This yearbook staff represents Bulkeley High School seniors. They came together under pressure to perform, and did great work. I know Bulkeley graduates will rise to their challenges in the future as well. We need more like them in today's world!

Mr. H. Kolding '03

... Our lives can change
in an instant,
as America has seen in a
day.

Things like this leave our
mouth speechless,
without any words to say.

But as we all come
together,
built up with fears,
we can only share
our compassion,
because we can't
uncry our tears.

Finding Pearls

I was fortunate enough to work in many careers before I became a Hartford teacher. They were all fun in their own way, but none of them were as rewarding as teaching. Teaching isn't easy, and there are days when teachers go home soul weary. What keeps us coming back year after year? It is the discoveries we find among our students. I call those discoveries "pearls". What constitutes a pearl? A student who goes above and beyond what is required of them in an assignment. For me it is a student who has a natural eye for photography or drawing or painting or writing or music. A student who has great ability and uses it, but doesn't know it yet (but we see it). A student who creates something that is special, and doesn't even realize it. This year I discovered Marybeth, a student with dedication and organization greater than I have seen in years, and we now have a yearbook because of her efforts. I discovered

Katarzyna, a photographer with an eye for beauty in the style of the classical masters of photography. I discovered Jason, who never signed up as a yearbook staff member, and yet became a major creative force in designing it. I discovered Arcides, who used my lab after school many times to create assignments for other classes, that were superb examples of graphic design. I met Jessica who did exceptional work including designing a school newspaper layout. I could go on and on naming students here, but I only won a half a page to use! You know who you are! You are Bulkeley High School!

To laugh is
to risk appearing a fool.

To weep is to risk appearing sentimental.

To reach out for another is to risk involvement.

To expose feelings is to risk rejection.

To place your dreams before the crowd
is to risk ridicule.

To love is to risk not being loved in return.

To go forward in the face of overwhelming
odds is to risk failure.

But risks must be taken because the greatest
hazard in life is to risk nothing.

The person who risks nothing does nothing,
has nothing, is nothing.

He may avoid suffering and sorrow,
but he cannot learn, feel, change,
grow, or love.

Chained by his certitudes, he
is a slave.

He has forfeited his
freedom.

Only a person who takes risks is
free.

Music

From hip-hop to electronica, pop to rock, no one musical genre dominated the airwaves and headphones of America. The year saw new albums from Moby, Red Hot Chili Peppers, Eminem, Leann Rimes and many more. Kelly Clarkson's career as a chanteuse took off, Lance Bass was grounded as a cosmonaut, Ozzy showed why he's an iron man, and Triumph marked his territory at the VMAs.

Still red hot

Flea and Anthony continue to assault eardrums and find creative uses for socks on the new Chili Peppers album, "By the Way."

Britney not so caliente

The divine Miss Spears is booed in Mexico City after she bails her concert just four songs in.

Don't tell Elvis...

Kelly Clarkson becomes the first "American Idol" and hits #1 on the Billboard singles chart.

Bye bye bye!

Lance Bass trains to become the first member of a boy band in orbit. But when he fails to pony up the \$20 million fee, the Russians say "nyet!" and send him home.

Something to Crow about

Sheryl Crow performs at the One World, One Child Benefit Concert in Brixton Hills.

Science

Zebra, king of the ocean?

Scientists discover that great white sharks are repelled by zebra striping.

The past year might be remembered as the one in which science fiction met science fact. Our good friends in the white lab coats discovered that dogs could count, fish could walk, and sharks really wanted nothing to do with zebras. Who knew? Humans made a few headlines as well, with balloonist Steve Fossett circling the globe at several thousand feet and the space station crew circling it just a bit higher.

A long way for pizza delivery

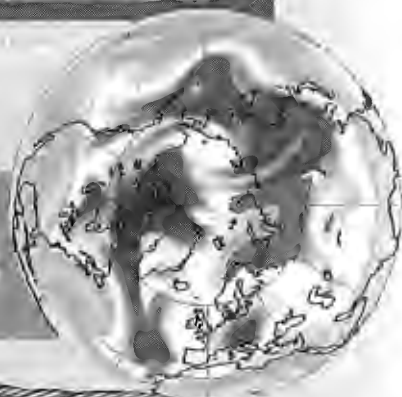

The International Space Station receives its fifth three-person crew, who live and work in orbit for four straight months.

Around the world in 14 days

After some 21,000 miles and two weeks aloft, Steve Fossett becomes the first person to circumnavigate the globe in a balloon.

Well, that's disturbing

Meteorologists discover that the Antarctic ozone hole has divided into two parts that are spreading away from each other.

The dog did my homework

Researchers at UC-Davis theorize that dogs have basic math skills, including the ability to count. No word on differential calculus.

That's even more disturbing

The snakehead, a.k.a. the "Frankenfish", is discovered in eight U.S. states. The Chinese fish can walk on land and decimate native ecosystems.

Walk like an Egyptian

Scientists employ a vibrating motor to enter a previously unexplored world: the inner ear.

Trends

Styles past and future, cheap and chic blended to make the year interesting for the trend-conscious. Denim made a comeback for the 287th time in history, while new electronic devices offered functionality that James Bond would envy. Not to mention that the modern look of Starck and Oldham hit traditional department stores, surfers hit suburbia, and lots of teen girls happily got mud on their faces.

It's, like, totally exfoliating!

Seventeen magazine opens its first spa dedicated exclusively to teens just outside of Dallas, Texas.

www.seventeenspa.com

Who cares if we live in Ohio?

Surf/skate fashion is cool, with brands such as Ezekiel, Hurley, and BC Ethic making a big splash on the half-pipe.

Feeling blue?

Denim is in, from jean jackets to hip-huggers, hats to handbags.

Fire up those synapses

Gaming goes to the next level with Gamestar's massively customizable Xbox Reflex Arcade Stick.

You will be integrated!

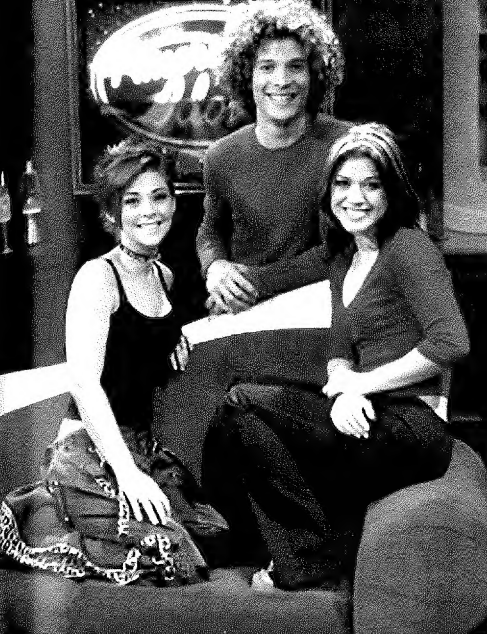

High-tech worlds converge as new devices blend capabilities of the cell phone, MP3 player, camera, and PDA.

It's pronounced "Tar-zhay"

International designers Todd Oldham and Philippe Starck bring their unique looks to products at Target.

Simon says...

Kelly Clarkson, Justin Guarini, and Nikki McKibbin vie for the top spot on "American Idol: The Search for a Superstar."

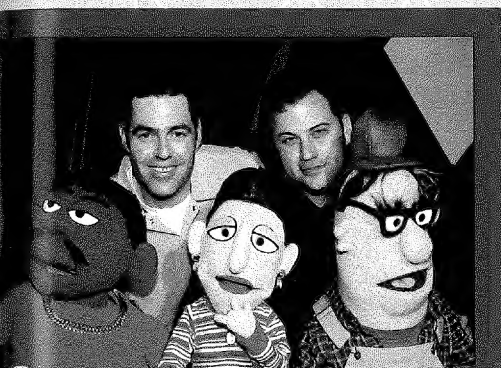

Television

The blue light continued to mesmerize viewers with lots of big departures, epic celebrations, and naughty puppets. The cast of "Friends" waved so long to their \$1-million-per-episode contracts (or did they?), while "SNL" lost its #1 George Dubya impersonator. NBC dominated the Emmy Awards, Fox dominated the market for Comedies Set Three Decades Ago, and "Crank Yankers" made us all afraid to pick up that phone call.

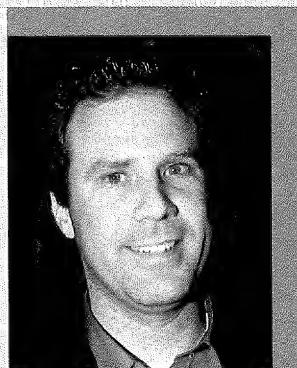

Bell-bottoms, bell-bottoms everywhere...

The Fox hit "That 70s Show" celebrates its 100th episode with a flurry of polyester and feathered hair.

Bad puppet! Bad, bad, puppet!

Never let a puppet use your calling card—"Crank Yankers" debuts on Comedy Central.

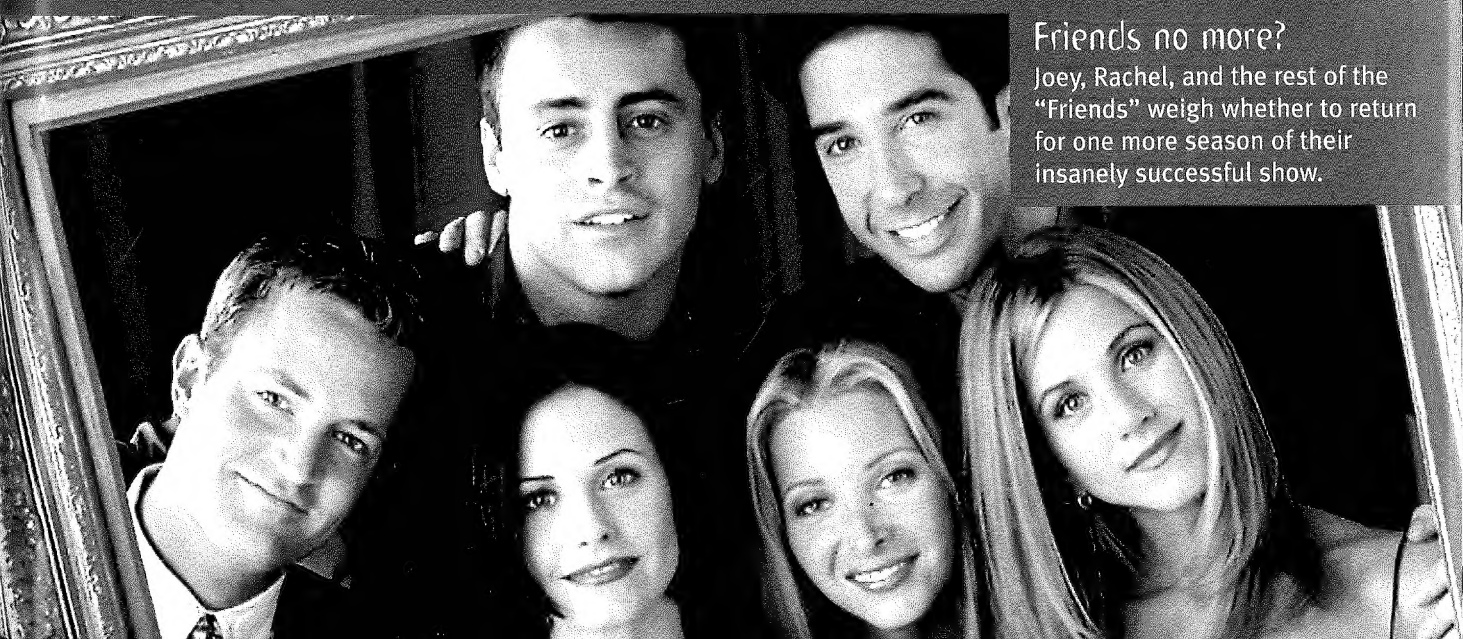

Gimme an L! Gimme an A T E R!

Will Farrell jumps the "SNL" ship and takes his cheerleader sweater with him. Let's hope it's not for "Another Night at the Roxbury."

The Emmy Awards

Conan O'Brien hosts as NBC wins big with 24 awards, including nods to "Friends" and "The West Wing."

Friends no more?

Joey, Rachel, and the rest of the "Friends" weigh whether to return for one more season of their insanely successful show.

Will and Tommy Lee kept the universe safe for another summer as Mike Myers went for another groovalicious turn as Austin Powers. There were also a few original flicks, including a sci-fi thriller from Steven Spielberg and new creepiness from the director of "The Sixth Sense" and "Unbreakable."

Do you see the "Signs?"
Mel Gibson stars in M. Night Shyamalan's imaginative tale of crop circles and little green men.

"The Two Towers"
Elijah Woods is back with furry feet and dangerous cargo in the second installment of "The Lord of the Rings" trilogy.

Mike Myers and Beyoncé Knowles get their retro groove on for the third Austin Powers movie, "Goldmember."

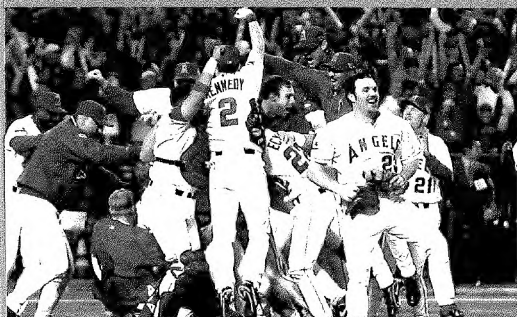

Sports

It was another big year for world and U.S. sports. Fans across the globe stayed up late, got up early, and tuned in to live broadcasts of the World Cup from Japan and Korea. Ronaldo helped Brazil hoist the Copa Mundial after a disappointing loss to France four years earlier. Americans had their fair share of epic victories as well, with Lance rolling through the Champs-Élysées ahead of his European rivals and Serena Williams dominating the world tennis scene.
